

ONLINE ORDERING INSTRUCTIONS

When you go to place your order please use the REORDER option. This will bring up the items you most frequently order. Enter the quantities you need keeping in mind the case packs when you do so. To order partial cases just enter .75, .50, .25 or the equivalent for the bottles you need. Please do not hit the back arrow in the browser when you're placing your order, the system doesn't like it. When you're done you can hit review order at the bottom of the screen. At this time, you can look it over and add items that didn't show up in the reorder screen by selecting add items at the bottom. Once you're done select submit order and you're all set. If you need to send me a note you can do so in the comments before you submit the order. Let me know if you have any questions.
